

NETAVIS Observer in your pocket!

NETAVIS Mobile Clients and NETAVIS Observer 4.4+

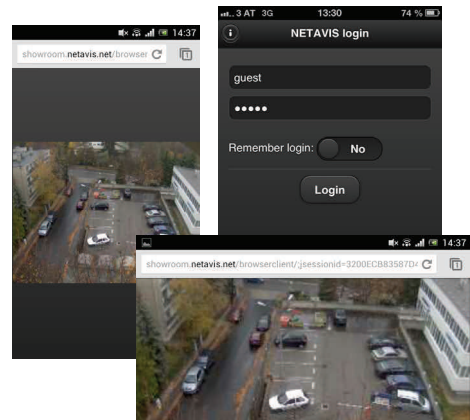

NETAVIS Smartphone Client

The browser application NETAVIS Smartphone Client allows for mobile Live Viewing in MJPEG with your Smartphone. It supports single camera views, different stream qualities and both portrait and landscape screen orientations. For Android use the Chrome browser, for iOS use Safari to enjoy the full functionality. The application is included on your NETAVIS server and available at <http://your-NETAVIS-hostname/browserclient>. NETAVIS Smartphone Client replaces the previous NETAVIS Client for iPhone.

NETAVIS Client for iPad

The NETAVIS Client for iPad 2.0 provides mobile live streaming for multiple cameras as well as archive access with many convenient navigation possibilities, both in MJPG. It allows full layout control and even camera pop up to full screen by finger tapping. Compatible from NETAVIS Observer 4.3.13 it replaces the previously available version 1.0.

Compatibility of Mobile Clients and Observer Versions
